COBI/2022-23/10/17

Date: 28.10.2022

To,

Respected Chief Minister Sir,
Haryana Civil Secretariat, 4th floor
Sector- 1, Chandigarh
Pin- 160022

Sub: Request to make single window system or appoint an officer who will be wholly responsible for solving the common issues of the industrialists.

Sir,

Confederation of Bahadurgarh Industries (COBI) works as an intermediate between the industries and the government. It acts as a medium to provide a platform to the industries where they can easily get their issues addressed. The motive of COBI is to ensure that all the troubles of the Industrialist reach the concerned Government Department.

Establishing or running an industry is not everyone's cup or tea. It includes a very long procedure in order to first of all establish and then run an industry whether it is small or large scale one.

An industrialist needs to take many clearances from different departments before starting an industry and it involves a very long and hectic process. They need to run behind every department to take clearances, permits or license. It takes a lot of time and strength. Many of the entrepreneurs give up at this stage and their valuable ideas go in vain.

Sir, we talk about Make in India and MSME, but with such a complex process this seems to be impossible to execute them to the fullest. It seems that ease of doing business is just for name sake.

In order to simplify this complex process of establishing and running an industry, we would request you to introduce a Single Window System where the aspirants will be provided with a checklist in which all the norms and policies of all the concerned departments will be mentioned clearly. One NOC could be provided on the behalf of all the concerned departments at the end of the completion of the checklist which would act as the permit to establish the industry and run it smoothly.

After introducing this single window system, the industrialist will have no need to visit each and every concerned department for seeking grants and permissions; he/she will get them

all at one place. In this case the industrialist can focus on increasing the productivity instead of worrying about the permits.

This would save their lot of time as well as energy and encourage the new entrepreneurs to come up with their inventive ideas. As the young minds and entrepreneurs with new and innovative ideas are the futures of our country.

Sir, on the behalf of all the industrialists and their employees, we would request you to introduce single window system or appoint an officer who will be wholly responsible for solving the issues of the industrialists in order to ease the process of establishing and running the industry so that upcoming young business ideas could be encouraged.

With due respect, we would request you to provide us with the time frame in which the work would be initiated.

Hoping for the positive response.

Regards

Parveen Garg
