**Sub: Encroachment of roads in MIE Part A and MIE Part B**

Sir,

In continuation to our discussion on the above stated issue during your meeting with COBI on 20/07/2022.

Encroachment on roads is a very common and one of the major issues faced by the industrialists. Half of the road is covered by illegal encroachment. As a result of which it becomes very difficult for the vehicles to pass through.

Industrial areas need wider roads to ensure easy passage to the heavy vehicles which used to carry goods and raw material, etc. Encroachment of roads make is very difficult for the heavy vehicles to pass through as a result of which, the production of the industries get suffered.

Sir, the upgradation work of both parts of the MIE industrial area is started. But as we have already discussed in the meeting that before starting the road construction, the encroachment of road on both parts of MIE industrial area needs to be removed otherwise the work won't be upto the mark possible. And you ensured us to do the same but nothing seems to be working right now.

So, we request you to take necessary action to remove the encroachment in both the parts of MIE industrial area so that the upgradation work could progress smoothly.

Also please provide us the time frame in which the work would be initiated so that the industrialists could get some assurance.

Hoping for the positive response.
